

I have read about the possibility of shutting down K-Love and other "religious" programs and radio stations. I would like to just tell you some of the wonderful things that are happening because of these organizations. I hear a two year old singing in the back seat and tells me to turn it up when her favorite song comes on. To hear her sing it when she is just playing in her room..a christian song. That blesses my heart and it lets me know that I am doing something right. I would simply like to ask for your cooperation in this situation. I have done things that I regret in the past, but with my encouragement and that of christian radio, I can make sure that she doesn't make those same mistakes I did. And ask yourselves this question...How would you feel if you could no longer hear your favorite singers or bands? I don't think that it should be any one elses decision to decide the things you or I listen to. Hopefully you will agree. Thank you for reading this and I hope and pray it makes a difference.
